LETTER IV.
FROM
Benj. Franklin, Esq; in Philadelphia,
TO
Peter Collinson, Esq; F.R.S. London.

Farther Experiments and Observations in Electricity.

SIR,

§ 1. There will be the same explosion and shock if the electrified phial is held in one hand by the hook, and the coating touch'd with the other, as when held by the coating, and touch'd at the hook.

2. To
